Amiga Disk of the Month March 2005 By Jack Baird

Hi everyone, hope you are all in good health and best of spirits. Well this will be my last DOM for a while. Mike and me are changing positions. Mike will make the DOM and I will put the News Letter together. Wish me luck.

This month there are 2 disks at the low price of \$ 5.00. The first is called Danger Mouse. Colonel K sends Danger Mouse on missions to rescue Penfold. This is an excellent platform game. The graphics and sound are first rate. I am not a very good gamer so I don't get to far in the levels. Hope you get farther than me, good luck.

Disk 2 is called Inside Info Animation It is a technical animation that shows how a steam engine runs. It is nicely done. Another thing it runs faster on an Amiga 1200 and an Amiga 4000 than an Amiga 500. Both these programs work on all Amigas.

Thanks again for everything . Enjoy the disks and see you all next month.
